## Harmonize on eurfmt.com

The project website is intended to be a key platform for publishing the description, results and achievements of HARMONIZE. To ensure it remains a viable platform, it is integrated into the EurFMT website. It contains the main information about the HARMONIZE objectives and outputs, descriptions of each work package, descriptions and contact details of the partners involved and information about the Consortium structure describing the interaction of HARMONIZE with external stakeholders.

By implementing the website as a subpage on the EurFMT network website, we ensure that communication activities are coordinated and can simultaneously use the network community as a replicator. In this way, we can also ensure that the main target group is reached and that the project results are maintained after the end of the project.

You can find the the independent HARMONIZE section on <https://eurfmt.com>, next to “Meetings”.
